

Dear Student:

It is mandatory that all undergraduate students who'd like to enroll in either CHEM 495, Independent Study; or CHEM 498, Research, must read the online Responsible Conduct of Research (RCR) training modules, and certify that you've read the modules, as a condition of enrollment.

Reading the modules takes approximately 45 minutes. Please go to <https://vpr.colostate.edu/ricro/rcr/training-and-certification/>. You'll be prompted to click a box certifying that you've read the modules. You'll receive an email generated from the system documenting your certification. Print and submit the email, along with your 'Approval of Variable Credit Course' form **to Cindy Ungerman in Chemistry room B303; or submit via email to cindy.ungerman@colostate.edu**. Typically, department approval to register will be granted within 24 hours.

For undergraduate students, the online training fulfills all current university requirements for meeting federal funding regulations.

This certification is mandatory and must be completed prior to submitting your 'Approval of Variable Credit Course Form,' and requesting department approval to enroll in either CHEM 495 or CHEM 498.

Questions? Contact me at 970-491-1090, or via email at cindy.ungerman@colostate.edu.

Sincerely,

Cindy Ungerman
